WORK EXPERIENCE

UX Designer, BIMM Inc — Toronto (Remote)

Dec 2022 — Feb 2026

Supported **large-scale digital experiences for Audi** across **North American, European, and global markets**. I worked end-to-end across research, UX, and UI, partnering with product managers, developers, and Design Ops to deliver scalable, performance-driven solutions within an **Agile environment**.

- Led UX design for the OneAudi Digital Dealership platform, improving **page speed by 400%**, increasing vehicle **page visits by 25%**, and **doubling cross-platform customer journeys**
- Designed and delivered a Dealer Theme back-end admin platform in **4 weeks, enabling 19 dealers** to manage theme activation on over **1500 vehicles**
- Collaborated cross-functionally to design, test, and ship user-centered solutions in Agile/Scrum workflows
- Applied Audi's Figma **design system (variables, components, tokens)** to build scalable UI solutions, partnering with Design Ops
- Led Experience Design initiatives, including the Annual Design Calendar and **documentation supporting a large-scale Figma migration**

UI/UX Designer, Stacktics Inc. — Toronto (Hybrid)

Oct 2021 — Dec 2022

Led UX, UI, and visual strategy for **enterprise-level clients**, owning projects from discovery through delivery.

- **Led design and development of user-centered interfaces** for enterprise clients across web and desktop products
- **Owned UX and visual design** for a desktop application from scratch, collaborating with developers and project managers
- **Led a complete company rebrand**, including logo design, color system, and brand guidelines
- **Optimized user flows and conversion**, improving usability while aligning with new brand identity and business goals
- **Consulted directly with clients** to define scope and manage proposals, budgets, timelines, and delivery
